Acknowledgements

Legend, the developers of my website, are enthusiastic supporters of all the hard-working and clever people who contribute to Open Source software code. Here we would like to thank those people who have contributed code that we have used on this site.

Site Engineering
This site is powered by WordPress

The engineering that has been adapted for the theme of this site is called Display by Kriesi

Typography

The extended typographic tools used to render the longer pages in such an attractive form, and done in a way that makes it so easy for me to achieve richly structured text has been enabled by several small but clever plugins.
